ELWIN J. LADD
Town Clerk

REPORT TO HEALTH OFFICER TOWN OF CLARKSVILLE

FROM JULY 5 - DECEMBER 31, 1963

My work as state public health nurse started on July 5th. This is the reason for the reports on these dates. My first months were spent in orientation and learning my work as public health nurse so I can be of some help to the people in this community.

Home calls were made to adults, all newborns and some preschools. This is to stress the need of medical follow up and immunizations against diphtheria, whooping cough, tetanus, smallpox and polio. Science has provided protection against these diseases and it is important for the parents to see that their children are protected.

An orthopedic clinic will be held in Stewartstown in 1964.

My sincere thanks for the cooperation received.

Respectfully submitted,

DOROTHEA E. NOYES, R. N.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Clarksville qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on Tuesday, the 10th day of March, 1964, at 10:00 o'clock in the forenoon at which time the polls will be open, followed by the business meeting at 2:00 o'clock in the afternoon, to act upon the following subjects:

1. To bring in your ballots for the election of School District Officers to be elected by ballot for the School District of Clarksville for the ensuing year(s).

2. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agents of the district.

3. To hear the reports of Agents, Auditors, Committees, or Officers chosen and pass any vote relating thereto.

4. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the salaries of district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

5. To see what sum of money the district will vote to raise and appropriate to repair the roofs on the entrance and furnace sections of the building.

6. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

7. To transact any other business that may legally come before this meeting.

Given under our hands at said Clarksville this 7th day of February, 1964.

SUPERINTENDENT'S REPORT

To the School Board and the Citizens of the School District of Clarksville:

Foreword

History tells us that a great majority of our early forefathers on this continent received a goodly share of their early education outside of school. Theirs was the rigorous school of life which was required to meet the challenges of the times, and not too much thought was given to subject matter content and the best way to get it across to the learner. Survival itself sufficed outside and the birch rod spoke rather convincingly inside the classroom.

In the atomic and space age of today, when we have come to lean more and more upon mechanization and scientific advancement to get things done, of necessity greater and greater reliance has had to be placed upon the more formal aspect of the educational effort. Although certain values, certain knowledge, and certain skills of long and universal standing apply just as much today as they did when our ancestors hit this country, the constant demand for new learnings and competencies emphasizes the urgency of an educational program of ever growing scope and quality.

As has been true down through the years, the two factors within the schools which will largely determine the extent that education meets this challenge are the learner and what he learns. With greater recognition of the unique differences and the greatly broadened experience horizons of the former, and the designing of procedures and selection of subject matter content in keeping with the latter, the standards of achievement may well be extended beyond the present academic level.

Teachers

For the first time in many years, both teachers are new this year. Mrs. JoAnn P. Davis, a graduate of Plymouth Teachers College, with several years of experience in this area, teaches in the primary room. Mr. Stephen J. McCann, just returned from serving in the Armed Forces, who received his bachelor's degree from Holy Cross College, Worcester, Massachusetts, and who has done extensive graduate work at the State Teachers and Assumption Colleges in the same city, teaches in the upper grade room.

School Nurse—Health

Mrs. Dorothy L. Ducret, our new school nurse, who received her training at the Maine General Hospital, Portland, Maine, is continuing the same comprehensive type of program as has been done during the past several years, which has been so effective in maintaining consistent overall good health in the schools. As has been cited before, in addition to the many daily and routine services, the work includes complete physical examinations every four years,

various periodic immunizations and annual pre-school and x-ray clinics.

Building—Equipment

In keeping with the action taken at the annual district meet ing, the tops of all pupils' desks have been refinished, and such general repairs as were needed have been made to both these desks and to the pupils' chairs. Exterior maintenance work has been minor in nature including the patching of roofs and replacement of wire screen on front stoop to protect the entrance door from playground balls. Repairs upon equipment have been confined to the servicing of the liquid duplicator.

As will be noted upon examination of the budget printed on subsequent pages in this report, additional savings in fuel costs over and above those anticipated have been realized through the insulation provided by the new siding on the building and the installation of the aluminum storm windows.

Enrollment and Attendance

For the third successive year, the school enrollment has continued to be small, as 37 is an increase of only one over the two preceding years of 36 each. The average percentage of attendance last year was 96.73 for Grades 1-4, and 97.60 for Grades 5-8, while the average number of tardinesses per pupil for each of these groups taken in the same order was .011 and .006.

The number of pupils attending school outside the district of 7, like that inside, also is small as there were 9, 12, 9, 13, 9, and 11 respectively for each of the preceding six years. Of the present number of tuition pupils, 4 are at Pittsburg High School, 2 are at Colebrook Academy, and 1 is at Canaan High School, Vermont.

Notes on the Budget

The School Board's Budget for 1964-65 is $22,914.00 in comparison to $19,921.00 plus $175.00 voted under a special article in the warrant to make a total of $20,096.00 for the current year. This amount is reduced by anticipated state aid of $600.00 plus an estimated balance of $1,400.00 which leaves $20,914.00 to be raised by taxes by the town as compared to the $18,096.00 for this year. Examination of the budget breakdown found on subsequent pages of this report will show that, for the most part, provision for increases in teachers' salaries and higher tuition costs explain the increase in the budget.

Conclusion

I wish to express my deep appreciation to the members of the School Board, parents, teachers, and citizens for all the assistance and cooperation received as we have worked together during the past several years to provide and to maintain high standards in our schools.

Respectfully submitted,

ERNEST B. DANA

Superintendent of Schools
